Lucy's Job

Task One:

Lucy earned a dollar walking her grandma's dog. She went to the store and bought a yo-yo that cost 33 cents.

Show all the possible combinations of coins that Lucy could have gotten back as change.

How can you show that you used ALL of the possible combinations of coins?

Task Two:

What if Lucy had a coupon for 5 cents off the price of the yo-yo, how much would the yo-yo cost?

What are ALL the possible combinations of coins could you get back as change then?

How can you make sure that you showed all of the possible combinations of coins?
