INDEPENDENT AUDITORS' REPORT

To the Board of Education
Greater Albany Public School District
Linn County, Oregon

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Greater Albany Public School District, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion

Management has not obtained an actuarial valuation of the post-employment benefit obligation related to the early retirement plan and implicit healthcare subsidy. Accounting principles generally accepted in the United States of America require that actuarially determined annual required contributions related to postemployment benefits, other than retirement benefits, attributable to employee services already rendered be recorded as expenses as employees earn the benefits, which, if not funded would increase the liabilities, reduce the net position, and change the expenses of the governmental activities. The amount by which this departure would affect net position, liabilities and expenses of the governmental activities is not reasonably determinable.

Qualified Opinions

In our opinion, except for the effects of not providing an actuarially determined liability for postemployment benefits as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Greater Albany Public School District, as of June 30, 2014, and the respective changes in financial position and budgetary comparisons for the general fund and major special revenue funds, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary and other information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, and the schedule of expenditures of federal expenditures are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, and the schedule of federal expenditures is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2014 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 22, 2014, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

**GREATER ALBANY PUBLIC SCHOOL DISTRICT 8J
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)**

Our discussion and analysis of Greater Albany Public School District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2014. Please read it in conjunction with the District's Financial Statements, which follows this MD&A.

FINANCIAL HIGHLIGHTS

- At June 30, 2014, the District's assets exceeded its liabilities by \$67,348,805.
- The District's net assets increased by \$4,143,218 during 2013-14.

OVERVIEW OF THE FINANCIAL STATEMENTS

The annual report consists of a series of financial statements that show information for the District as a whole, its funds, and its fiduciary responsibilities. The Statement of Net Assets and the Statement of Activities provides information about the activities of the District as a whole and presents a longer-term view of the District's finances. Our fund financial statements are included later in the financial report. For our governmental activities, these statements tell how we financed our services in the short-term as well as what remains for future spending. Fund statements also may give you some insights into the District's overall financial health. Fund financial statements also report the District's operations in more detail than the government-wide financial statements by providing information about the District's most significant fund, the general fund.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements present information on the District's finances in a manner similar to private sector businesses. One of the most important questions asked about the District is, "Is the District as a whole better off or worse off financially as a result of the year's activities?" The Statement of Net Assets and Statement of Activities report information on the District as a whole and its activities in a way that helps answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Assets shows the District's assets and liabilities, with the difference between the two reported as net assets. All capital assets and long-term liabilities, and general government functions, are shown in the Statement of Net Assets.

The Statement of Activities shows revenues, expenses, and the change in net assets for the District as a whole. Revenues and expenses attributable to specific functions are segregated from general revenues, to display the extent to which general revenues support each function.

FUND FINANCIAL STATEMENTS

Governmental funds account for the same functions as are reported as governmental activities in the government-wide financial statements. The governmental fund reporting focuses on how money flows in and out of funds and the balances left at year end that are available for spending. They are reported using the accounting method called "modified accrual" accounting, which measures cash and all other financial assets that can be readily converted to cash. This information is essential for preparation of and compliance with annual budgets.

We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliations following the government statements. The notes to the financial statements provide additional information that is essential to a complete understanding of the data provided in the financial statements.

FUND FINANCIAL ANALYSIS

The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Unreserved fund balance measures the District's net resources available for appropriation in the next fiscal year. As of June 30, 2014, total fund balance of the governmental funds was \$16,194,618. These amounts are available to use, in accordance with applicable restrictions on the nature of the expenditures.

Summary of ending fund balances for the major governmental funds for 2014 and 2013 are as follows:

	<u>ENDING FUND BALANCE</u>		<u>CHANGE</u>
	<u>2014</u>	<u>2013</u>

CAPITAL ASSETS

Please refer to the notes to basic financial statements for more detailed information regarding capital assets.

DEBT ADMINISTRATION

Please refer to the notes to the basic financial statements for more detailed information regarding long-term debt.

2013-2014 BUDGET

The State School Fund (made up of local and state funding sources) accounted for 87% of the General Fund revenue for the school district (98% if fund balance is excluded). District operations were helped tremendously by an 11% increase in funding from the 2011-13 to the 2013-15 biennium. In 2013-14 positions were added and programs restored, all while maintaining an \$8.9 million General Fund balance (10.8% of budget). The School District is further aware that the School Nutrition Services Fund is operating in a deficit and continues to work to reduce the fund deficit.

REQUESTS FOR INFORMATION

Our financial report is designed to provide our taxpayers, parents, teachers, students, investors and creditors with an overview of the District's finances. If you have any questions about this report or need any clarification of information please contact the Business Office at the Greater Albany Public School District offices, located at 718 7th Avenue SW, Albany, Oregon 97321.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**
For the Year Ended June 30, 2014

Net Change in Fund Balance \$ 1,267,040

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capitalized Expenditures	\$ 1,179,104	
Capital Asset Disposals	-	
Depreciation Expense	<u>(3,314,816)</u>	(2,135,712)

Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Position, however, issuing long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Position. This is the amount by which proceeds exceeded repayments:

New Debt Issued	\$ (661,466)	
Principal Repaid	<u>6,702,318</u>	6,040,852

Governmental funds report the effect of issuance costs, premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.

Amortization of Prepaid Pension Asset	(1,763,718)
---------------------------------------	-------------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Early Retirement	(82,959)
Bond Premium Amortization	351,388

Miscellaneous Adjustments made to recognize certain expenses in the statement of activities that were not considered expenditures in the fund statements, and certain revenues that were not recorded in the fund statements.

33,072

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds, and are instead recorded as deferred revenue. They are, however, recorded as revenues in the Statement of Activities.

432,281

Change in Net Position \$ 4,142,244

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies are described below.

REPORTING ENTITY

The Greater Albany Public School District functions as an operational education organization consisting of 19 elementary, secondary, and high schools. The District was organized under provisions of Oregon Statutes Chapter 332 for the purpose of operating elementary and secondary schools. The Greater Albany Public School District's Board of Education is the basic level of government, which has financial accountability and control over all activities within District boundaries. As required by generally accepted accounting principles, these financial statements present Greater Albany Public School District (the primary government) and would include any component units. Component units, as established by the Governmental Accounting Standards Board (GASB) Statement 39, are separate organizations that are included in the District's reporting because of the significance of their operational or financial relationships with the District. There are no component units.

BASIS OF PRESENTATION - FUND ACCOUNTING

GOVERNMENT-WIDE FINANCIAL STATEMENTS (GWFS)

The Statement of Net Position and Statements of Activities displays information about the reporting government as a whole.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Program Revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from general revenues.

All direct expenses are reported by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Interest of general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

FUND FINANCIAL STATEMENTS

The accounts are organized and operated on the basis of funds. A fund is a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

GOVERNMENTAL FUND TYPES

Governmental funds are used to account for general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are “measurable and available”). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, and certain compensated absences and claims and judgments which are recognized as expenditures because they will be liquidated with expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The following major governmental funds are reported:

GENERAL FUND

This fund accounts for all financial resources and expenditures except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

GRANT FUNDS

The Grants Fund includes Title I, IDEA, and other federally financed special project funds. The principal sources of revenue are grants from the federal and Oregon governmental agencies. The primary uses of revenue are salaries and supplies specifically requested with application for grant.

DEBT SERVICE FUND

The Debt Service Fund accounts for the payment of principal and interest of the general obligation bonds. The principal resource is property taxes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Additionally, the following funds are reported:

OTHER GOVERNMENTAL FUNDS

The Other Governmental Funds account for the aggregate of all non-major governmental funds.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted Net Position available to finance the program. It is policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. All revenues reported in the governmental funds are considered to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Private sector standards of accounting and reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that these standards do not conflict or contradict the guidance of the Governmental Accounting Standards Board.

BUDGETS

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting in the main program categories required by Oregon Local Budget Law. The budgets for all budgeted funds are adopted on a basis consistent with generally accepted accounting principles in the United States of America except the property taxes received after year-end are not considered budgetary resources in the funds, inventory is expensed when purchased, compensated absences and post-employment benefits are expensed when paid instead of when incurred, capital outlay is recorded as an expenditure rather than capitalized, depreciation is not recorded on capital assets, and debt is expensed as paid instead of when incurred.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BUDGETS (CONTINUED)

The budget process begins early in each fiscal year with the establishment of the budget committee. Recommendations are developed through late winter with the budget committee approving the budget in early spring. Public notices of the budget hearing are generally published in spring with a public hearing being held approximately three weeks later. The Board may amend the budget prior to adoption. However, budgeted expenditures for each fund may not be increased by more than ten percent without re-publication. The budget is then adopted, appropriations are made, and the tax levy declared no later than June 30th.

Expenditure budgets are appropriated at the following levels for each fund: Instruction, Support Services, Enterprise & Community Services, Facilities Acquisition and Construction, Other Uses - Debt Service and Interfund Transfers, and Operating Contingency.

Expenditures cannot legally exceed the adopted appropriation levels except in the case of grants which could not be estimated at the time of budget adoption. Appropriations lapse at the fiscal year-end. Management may amend line items in the budget without Board approval as long as appropriation levels (the legal level of control) are not changed. Supplemental appropriations may occur if the Board approves them due to unforeseen circumstances which could not be determined at the time the budget was adopted.

Budget amounts shown in the basic financial statements reflect the original budgeted appropriation amounts and appropriation resolutions. Expenditures of the various funds were within authorized appropriations for the year ended June 30, 2014, except for the Grant Funds which over expended Enterprise and Community Services by \$1,115, the Debt Service Fund which over expended Debt Service by \$5,813, the Bus Replacement Fund which over expended Support Services by \$55,009, the Energy Conservation Fund which over expended Support Services by \$70,000, the School Lunch Fund which over expended Enterprise and Community Services by \$66,948 and the Capital Improvements Fund #1 which over expended Support Services by \$5,392.

PROPERTY TAXES RECEIVABLE

Uncollected real and personal property taxes are reflected on the statement of net position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

GRANTS

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures are recorded as unearned revenue on the statement of net position and the balance sheet.

SUPPLY INVENTORIES

Supply inventories purchased are valued at the lower of invoice cost (first-in, first-out) or market. Supply inventories are recorded as expenditures when used, rather than when purchased.

RETIREMENT PLAN

Substantially all employees are participants in PERS. Contributions to PERS are made on a current basis as required by the plan and are charged to expenditures as funded. The Board of Directors, through contract negotiations, authorized offering of early retirement benefits to all non-temporary employees. Expenditures are recorded in the governmental funds as the incentive payments and related insurance premiums are incurred. The present value of future incentive payments and estimate insurance benefits is recorded in the Statement of Net Position.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net positions that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government on has no item that qualifies for reporting in the category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

CAPITAL ASSETS

Capital assets are recorded at original cost or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Interest incurred during construction is not capitalized. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	10 to 50 years
Vehicles and Equipment	5 to 30 years

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

LONG-TERM OBLIGATIONS

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt. As permitted by GASB Statement No. 34 the cost of bond issuance is amortized prospectively from the date of adoption of GASB Statement No. 34.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

FUND EQUITY

In March 2009, the GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved/undesignated were replaced with five new classifications – nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories and prepaid items.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUND EQUITY (CONTINUED)

- Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

NET POSITION

Net position comprises the various net earnings from operations, non-operating revenues, expenses and contributions of capital. Net position are classified in the following three categories:

Invested in capital assets, net of related debt – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There is restricted net position for debt service and capital projects.

Unrestricted net position – consists of all other assets that are not included in the other categories previously mentioned.

2. CASH AND INVESTMENTS

DEPOSITS

Deposits with financial institutions include bank demand deposits. The total bank balance per the bank statements on June 30, 2014 is \$451,226. Oregon Revised Statutes requires deposits be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

INVESTMENTS

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund was in compliance with all portfolio guidelines at June 30, 2014.

INVESTMENTS (CONTINUED)

Amounts in the State Treasurer’s Local Government Investment Pool are not required to be collateralized. As of June 30, 2014 the fair value of the position in the LGIP approximates the value of the pool shares as reported in the Oregon Short Term Fund audited financial statements.

Cash and Investments at June 30, 2014, (recorded at fair value) consisted of:

Cash and Investments:	
Petty Cash	\$ 21,020
Demand Deposits	(1,694,360)
Investments	<u>22,460,778</u>
 Total	 <u>\$ 20,787,438</u>

State Treasurer's Investment Pool	\$ 22,460,778	\$ 22,460,778	\$ -	\$ -

Interest Rate Risk

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond three months.

Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk.

Credit Risk – Investments

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

Concentration of Credit Risk

At June 30, 2014, 100% of total investments were in the State Treasurer’s Investment Pool. State statutes do not limit the percentage of investments in either of these instruments.

BONDS PAYABLE:

General Obligation Bonds

General obligation bonds are issued to provide funds for the acquisition and construction of major capital facilities. The original amount of general obligation bonds issued in prior years is \$100,885,000.

On December 20, 2006, the General Obligation Bonds, Series 2006 was issued for \$55,000,000, with interest rates ranging from 3.85-5.0%.

Pension Obligation Bonds

In 2004, \$45,885,000 of limited tax pension obligation bonds were issued to finance the unfunded actuarially accrued liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the UAL. The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the future required contribution rate.

Changes in bonds outstanding are as follows:

7. PREPAID PENSION COSTS

As a result of the issuance of the 2004 Limited Tax Pension Obligation Bonds, a Prepaid PERS Liability is reported in the Statement of Net Position. The prepaid costs are equal to the initial \$44,169,629 payment made to PERS from the bond proceeds, less accumulated amortization at June 30, 2014 of \$17,713,862. Annual amortization is being calculated on a straight-line basis over the life of the pension obligation bonds.

8. RETIREMENT PLAN

Contributions are made to the Oregon Public Employees Retirement Fund (OPERF), a cost-sharing multiple-employer defined benefit pension plan administered by the Oregon Public Employees Retirement System (PERS). PERS provides retirement and disability benefits, post-employment health care benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

PERS is administered under Oregon Revised Statute (ORS) Chapter 238. ORS 238.620 establishes the Public Employees Retirement Board as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report can be obtained by writing to PERS, P.O. Box 23700, Tigard, OR 97281-3700 or by calling 1-503-598-7377.

Members of PERS are required to contribute 6% of their salary covered under the plan. The District is required by ORS 238.225 to contribute at an actuarially determined rate. The employer contribution rate effective July 1, 2013 was 14.44% of salary covered under the plan for Tier 1 and Tier 2 employees and 12.44% for employees covered under the Oregon Public Services Retirement Plan (OPSRP). In June, 2004 the District participated in the Oregon School Boards Association limited tax pension obligation bond issues to finance a portion of the estimated unfunded PERS actuarial liability (the "UAL"). The District borrowed \$45,885,000 reducing the rate paid to PERS on Tier 1 and Tier 2 employees.

The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature. Contributions to PERS for the year ended June 30, 2014, 2013 and 2012 were approximately \$10,149,102, \$8,794,174 and \$8,719,645 respectively, and were equal to the required contributions for each year.

9. EARLY RETIREMENT PLAN

There is an early retirement plan for qualified employees. Expenditures are recorded as the incentive payments and related insurance premiums are incurred. In order to qualify for the plan, an employee must be eligible for retirement under PERS. Eligible employees will be paid for a specified time. The amount of compensation per month is equal to 1% of the contractual yearly salary the retiree would have received if fully employed with the District, along with related insurance premiums. Early retirement program costs are recorded as expenditures and funded on a pay as you go basis. The actuarial present value of vested and non-vested accumulated benefits is not available. At June 30, 2014, the estimated liability is \$1,615,649, which has been accrued in the statement of net position. Total expenses for the year ending June 30, 2014 were \$1,068,904.

10. SELF-INSURANCE

Public liability and property damage claims are self-insured for the first \$100,000 of any accident and for the amount, if any, in excess of stated policy limits. The District carries liability insurance for amounts not otherwise self-insured. Estimated losses on claims are charged to expense in the period the loss is determinable.

There is also self-insurance for benefits to unemployed former employees through participation in a risk pool. One percent of payroll is contributed to the pool. Contributions in excess of actual unemployment benefits paid are held in the Insurance Reserve Fund.

11. DEFERRED COMPENSATION PLAN

A deferred compensation plan is available to employees wherein they may execute an individual agreement with for amounts earned by them to not be paid until a future date when certain circumstances are met. These circumstances are: termination by reason of death, disability, resignation, or retirement. The deferred compensation plan is one which is authorized under IRC Section 457 and has been approved in its specifics by a private ruling from the Internal Revenue Service. The assets of the plan are held by the administrator for the sole benefit of the plan participants and are not considered assets or liabilities.

12. OTHER POST EMPLOYMENT BENEFITS

PLAN DESCRIPTION

A single-employer retiree benefit plan is operated that provides postemployment health, dental vision and life insurance benefits to eligible employees and their spouses. There are active and retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements.

The post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims cost, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the District's implicit employer contribution.

No irrevocable trust (or equivalent arrangement) was established to account for the plan.

No actuarial valuation was completed for the year ended June 30, 2014, and therefore no annual required contribution has been calculated.

FUNDING POLICY

The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation to fund these benefits in advance.

13. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is carried for other risks of loss including excess liability, workers' compensation, boiler and machinery, public official bond and employee dishonesty and contractors license bond coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

14. COMMITMENTS AND CONTINGENCIES

A number of federally assisted grant programs are participated in. These programs are subject to program compliance audits by the grantors or their representatives. The federal audits for these programs for the year ended June 30, 2014 have not been conducted. Accordingly, compliance with grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although amounts are expected to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

15. PROPERTY TAX LIMITATIONS

The State of Oregon imposes a constitutional limit on property taxes for schools and nonschool government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The State further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

16. INTERGOVERNMENTAL AGENCY

In 1993 an intergovernmental agreement was entered into to build, operate, and maintain the Linn Regional Fueling Facility (LRFF) along with Linn County, the City of Albany, Linn-Benton Community College, and Linn-Benton-Lincoln Education Service District. The agreement specified that the land and improvements constituting the regional fueling facility shall be owned by Linn County and that the capital costs of designing and building the facility will be repaid by all parties through surcharges and capital cost payments. The capital cost payments will end when the total capital cost of the facility has been reached.

After Five years of participation in the agreement, a party becomes vested as a capital cost shareholder. If, after the five-year point, a party withdraws from the agreement, the other parties agree to pay the withdrawing party an amount equal to 80% of that party's total capital cost payments. Operation and maintenance costs are shared by the parties proportionately in accordance with each party's usage of the facility. These costs are covered through surcharges and fees set by the Linn Regional Fueling Facility Board.

16. INTERGOVERNMENTAL AGENCY (CONTINUED)

There is no equity interest in the Facility, and therefore does not report an equity interest in the basic financial statements. At June 30, 2014, the Linn Regional Fueling Facility's equity balance as reported in its audited financial statement totaled \$84,187. A copy of the Linn Regional Fueling Facility's audit report may be obtained from Linn County.

17. INTERFUND TRANSFERS AND BALANCES

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of the Greater Albany Public School District as of and for the year ended June 30, 2014, and have issued our report thereon dated December 22, 2014. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

In connection with our testing nothing came to our attention that caused us to believe the Greater Albany Public School District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, except as follows:

1. Expenditures of the various funds were within authorized appropriations except as noted on page 13

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

We noted matters involving the internal control structure and its operation that we consider to be significant deficiencies under standards established by the American Institute of Certified Public Accountants, which are noted in the schedule of findings and questioned costs on page 54.

This report is intended solely for the information and use of the Board of Directors and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Greater Albany Public School District as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 22, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Report on Compliance for Each Major Federal Program

We have audited Greater Albany Public School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2014. The major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

Opinion on Each Major Federal Program

In our opinion, Greater Albany Public School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
