Candy Bars for Sale

Task 1:

Suzy went to the candy store with coins from her piggy bank and bought a candy bar for 25 cents. What are the different combinations of coins that Suzie can use to buy the candy bar? How can you verify that you have used ALL possible combination of coins?

Task 2:

If Suzy went to the candy store with a dollar bill and paid 25 cents for her candy bar, what are ALL the different combinations of coins she could receive as her change? How can you verify that you have used all the possible combinations of coins that she could have received?
