Facility Usage Rules & Procedures

Policy Statement

The district cooperates with the community in providing use of the district facilities when possible without interference with the education and activity programs of the schools or the requirements for maintenance, operation, safety and security of the physical plant and grounds.

Application Procedure

Groups or individuals wishing to use district facilities must complete a facility use agreement, which may be obtained from either the building principal or from the physical plant office on Grand Prairie Road. To assure reservations of the facility, application shall be in the principal's office far enough in advance to allow ample time to properly plan for the use of the facility, preferably 10 days before the date of use.

The facilities can be used only after the appropriate form has been completed. Proof of liability insurance in the amount of at least \$2,000,000 along with the facility usage form signed by the principal must be on file in the physical plant office prior to usage of facilities. The group must maintain their insurability to the levels above throughout the term of the agreement and any extensions thereto. The group has an affirmative duty to provide the district with any notice they receive regarding the reduction, modification, or cancellation of the insurance policy within 24 hours of the group's receipt of such notice. If the entity wanting to use a facility does not have insurance coverage there is a Tenant User Liability Insurance Program (TULIP) which allows community groups and others to buy low-cost special event insurance to use school facilities. It is WEB based and can be viewed at www.ebi-ins.com/tulip/. After choosing the district and answering some simple questions it will provide an immediate price quote which can be paid by credit card online. The Certificate of Insurance will then be sent automatically to the school district.

Under special circumstances, the district may accept a waiver if insurance coverage is not available.

It is the principal's responsibility to ascertain that the proposed activity:

1. Will not be harmful to the school facility;
2. Will not interrupt the school's programs;
3. Will appropriately fit into the building use calendar;
4. Will have adequate and appropriate supervision;
5. Will not cause or allow a breach in security.

Availability

1. The district reserves the right to grant or deny permission for use of facilities at its sole discretion.
2. Use of district facilities for church, partisan, political or sectarian purposes may be granted; however, such approval in no way implies district endorsement or sponsorship of these activities.
3. Those organizations that have failed to pay for previous usage will be denied use until the past due debt is paid in full.
4. Unauthorized use of the district facilities or failure to comply with the facility use agreement or policy may result in cancellation of agreement or denial of any future use.
5. Nothing shall be sold, given or exhibited or displayed unless permission is granted.
6. Programs that serve the district's students will have priority over adult programs when scheduling facilities.
7. If admission is charged, the district charge for the use of the facility will be the standard fee plus 15 percent of the gross gate. Donations and pledges are not considered admission fees.

When school administrators are unavailable, the physical plant office will determine the availability of facilities.

Cancellation

Request for the cancellation of the agreement shall be made to the building principal or the physical plant office no later than one day preceding the scheduled use of the facility. A regular charge shall be made in accordance with the usage agreement for the facility engaged and not used unless such notice to cancel is given.

The Board authorizes the superintendent or his/her representative to cancel building use agreements when it is apparent that such action is necessary for the best interest of the district. Whenever possible, the district will provide at least a 48-hour cancellation notice if a group's approval to use the facilities must be revoked.

Supervision/District Staff Presence Required

All groups using any facility will provide supervision. The building principal or facilities supervisor will determine the level and type of supervision required and may require that a district employee be present. A district staff representative will likely be required whenever a large group or many minors will assemble, or other situations in which potential for harm to person or property is high. Disagreements regarding the level of supervision required that cannot be resolved between the requestor and the principal/facilities director should be appealed to the superintendent.

When district staff is required, either for supervision or for some other reason related to the proposed activity, the sponsoring group will be charged \$30 per hour for food service employees and \$35 per hour for all other employees (custodian, for example). All district employees who are hired by the district to supervise will be paid through the district payroll department.

The district reserves the right to require police supervision at any event the administration deems necessary and to charge the user the actual cost incurred by the district.

Security

District keys should not be shared or given to nondistrict employees without appropriate record keeping and accountability. If the principal deems it necessary to issue a key, a \$25 deposit is required. The deposit will be retained in the school's petty cash account and will be forfeited if the key is not returned by the date specified. Keys must be returned promptly at the end of each season or event.

Safety, Liability and Care of Facilities

Any organization sponsoring the use of the building or grounds shall assume liability for any accidents that occur upon the grounds or in the buildings during the times such facilities are in use under its direction. Putting up decorations or scenery or moving pianos or other furniture is prohibited unless permission is granted. The use of school equipment is not included in the facility usage agreement and is prohibited unless permission is obtained and all electrical equipment and arrangements shall be controlled by the district or its representatives.

Representatives of the district must have free access to all rooms at all times. The building administrator, designated supervisor or physical plant director has the right to stop any activity at any time if in his or her judgment there is a violation of the rules contained in this document, or if the activity is deemed to be hazardous to personnel, property, equipment or participants.

Any damages to district property as the result of the use (e.g. grounds, buildings, equipment) shall also be assumed by the sponsoring parties. If damages occur during the use of a facility, documentation must be provided by the supervisor detailing the date, time, location, nature of the damage and the responsible party. The principal and the physical plant office should be notified as soon as practical and photos taken if possible.

Returning the facility to the condition it was prior to usage, including cleanup and the return of all keys is the responsibility of the user. Failure to comply will result in additional charges, including the cost of cleanup, repair, re-keying and possible denial of future facility use.

Halls are to be blocked off when school is not in session to control the usage of the facility.

If a group uses a facility and the doors are left open or unlocked then a fee of \$25 shall be assessed for each occurrence.

The maximum number of people permitted in the various buildings or facilities shall be restricted to the fire marshal requirements.

The district assumes no responsibility for properties left on the premises.

Specialized Facilities, Equipment & Usage

1. Gyms and Multipurpose Rooms

Appropriate (nonmarking) gym shoes are required for all participants involved in active sports and games. Use of school gymnasiums includes the use of dressing rooms, showers and lights. Towels to be furnished by the applicant.

2. Kitchens and Cafeterias:

- a. For activities that would not involve actual food preparation or operation of kitchen equipment, e.g., receptions, access to kitchen facilities will be allowed only under the supervision of an appropriate school employee whose responsibility would be to consult with the cook manager prior to the activity and to see that kitchen facilities are left as mutually agreed;
- b. For activities involving actual food preparation, regularly employed kitchen workers must be present. The actual number required depends upon the activity and must be determined by the manager cook and the nutrition services director.

3. Weight Rooms

Nondistrict use of weight rooms brings increased concern with regard to the potential of injury to person or damage to property. In most cases a district employee will be required to be present whenever a group is authorized to use a district weight room. Under exceptional circumstances a group may be granted access without direct district supervision when the group can demonstrate that both adequate supervision and training regarding the proper use of weight equipment will be present at all times.

4. Computer Labs

- a. Nondistrict use of computer labs brings increased concern with regard to the potential of damage to property or theft. In most cases a district employee will be required to be present whenever a group is authorized to use a district computer lab. Under exceptional circumstances a group may be granted access without direct district supervision when the group can demonstrate that adequate supervision will be present at all times and appropriate training regarding the proper use of the computer equipment will be provided.
- b. The district electronic communication system has not been established as a public access service or a public forum. Commercial and/or inappropriate personal use of the district's system is strictly prohibited. Any nondistrict use of computer labs must also be approved by the district's technology manager as type and scope of network access must be determined on a case-by-case basis.

5. Playing Fields

Organizations renting playing fields will be required to provide portable restrooms for participants. Failure to comply will result in denial of future use.

Groups Granted Free Use

The following groups, organizations or activities will be granted free use of district facilities providing such use shall in no way interfere with or be detrimental to school functions. Such free use will be limited to those times when a district employee is on regularly scheduled duty. A charge will be made for the use of the facility when a district employee is required to be present or when extra heating, utility costs or cleanup are incurred beyond the normal operating hours.

1. Parent club meetings and activities;
2. After-school sponsored activities;
3. Wellness activities for district employees only;
4. Fund raising activities for educational, athletic or fine art purposes benefiting district students;

6. Other groups or organizations may be added at the district's discretion.

Groups Granted a Reduced Rate

Nonprofit organizations providing school-aged youngsters with activities and programs for self-development are eligible for a reduced facility rate. The determination of which groups qualify for the reduced rate shall be made by the superintendent or designee.

Specialized Instruction

Individuals who provide individual instruction to enhance academic, athletic or fine arts achievement will be required to follow the facility use application procedure and submit proof of liability insurance or a signed waiver of insurance. The building administrator must approve all applications before any tutoring can take place. In lieu of rental fee, the tutor shall pay 15 percent of whatever he/she charges students.

Groups Expected to Pay Regular Rate

The following groups, organizations or activities will be expected to pay regular rate, as prescribed by the district's fee schedule:

Payment

Payment, when required, for use of the district facility shall be made to the district business office within one week after the facility has been used, unless special arrangements have been made previously. Failure to pay will disqualify the group or user from further use of district facilities.

Discount for Volume Users

Should an entity make a request in a single application for ten or more uses (same use, multiple dates) totaling \$10,000 or more in fees the entity will be entitled to a 5 percent discount (assuming the entire fee is paid for upfront). Should an entity make a request in a single application for twenty or more uses (same use, multiple dates) totaling \$20,000 or more in fees the entity will be entitled to a 10 percent discount (assuming the entire fee is paid for upfront). Groups granted a reduced rate for facility use are not eligible for this discount.

Contributions of Capital Improvements and Other Tangible Benefits

The district will consider a partial reduction in facility use fees in exchange for the contribution of specific capital improvements or similar tangible assets or benefits to district facilities by a user or user group. Requests for such arrangements should be in the form of a written proposal and will be considered on a case by case basis by the director of business and operations.
